

DEFENSE & AEROSPACE

Critical Technology withstanding
the Toughest Environments for Life Dependent Missions

Radar
Milcom
Electronic Warfare
SatCom/VSAT

TELECOM

Driving Connection, Faster and More Efficiently

4G LTE
5G
Wi-Fi
Point-to-Point Radio
Satellite

RF ENERGY

Helping you Protect our People and Planet,
Faster for the Long Haul

Microwave Heating and Drying
Particle Accelerators
Plasma Lighting
Semiconductor Equipment
Waste Gasification
Carbon Fiber & Composite Materials
Microwave Assisted X-ray Laser
Microwave Tumor Ablation
Bio & Health Sciences

**RFHIC, Shapping a Better Future with
the use of GaN RF & Microwave Technology.**
